EDUCATION

B.S. Computer Science

Completed 2008

PROFESSIONAL SUMMARY

Dedicated Web Developer with 8+ years of professional experience in WordPress development and a broader background in web development, IT administration, e-commerce, and technical support. Experienced in building, maintaining, optimizing, and troubleshooting WordPress websites, including WooCommerce projects, while also working with Shopify, Vue.js/Nuxt.js, JavaScript, REST APIs, HTML, CSS, and PHP. Strong track record taking projects from design and development through testing, optimization, security hardening, and deployment — including converting PSD and graphic designs into responsive websites, integrating third-party APIs, developing custom WordPress plugins, resolving malware and security issues, and optimizing sites for performance and SEO. Comfortable working independently on freelance projects while communicating effectively with clients, designers, and technical teams to deliver reliable, maintainable web solutions.

PROFESSIONAL EXPERIENCE

Freelance Web Developer

Jan 2019 - Present

Project-Based Clients · Remote

- Delivered 13 WordPress websites, including 3 WooCommerce e-commerce builds, using Elementor, Divi, Astra, and Visual Composer.
- Built 4 Shopify storefronts using Shopify Liquid and Theme Kit.
- Developed 5 custom WordPress plugins with Git/GitHub version control.
- Engineered custom solutions for malware removal, abandoned-cart management, unused media cleanup, and WooCommerce shipping integration.
- Integrated a custom UPS REST API shipping solution with WooCommerce.
- Diagnosed and removed malicious code from compromised WordPress sites and implemented security hardening measures.
- Troubleshooted WordPress, WooCommerce, hosting, plugin, theme, and code-related issues for clients.
- Worked with REST APIs and modern JavaScript frameworks, including Vue.js and Nuxt.js.
- Managed full project lifecycles — requirements, design implementation, development, testing, and deployment.

Web Developer

Jan 2017 - Jan 2019

Outsourcing Wizard · Remote

- Converted Photoshop and graphic design mockups into responsive, production-ready HTML/CSS websites.
- Built responsive front-end interfaces using Bootstrap 4 and custom JavaScript.
- Partnered closely with graphic designers and clients to translate designs into functional websites.
- Performed cross-browser and cross-device compatibility testing, plus performance testing with Google PageSpeed and GTmetrix.
- Resolved an average of 15 client-reported bugs per project within 24 hours.
- Achieved a 98% client satisfaction rating and improved development hand-off efficiency by ~20%.

Freelance Web Developer

Jan 2015 - Jan 2017

Local Small & Medium Businesses · Home-Based

- Managed WordPress websites and cPanel hosting environments for local SME clients.
- Converted PSD designs into functional, modern HTML websites.
- Delivered 5 websites for local businesses, averaging 8-12 pages per site.
- Integrated WordPress plugins tailored to business and inventory management needs.
- Optimized website SEO, contributing to a 40% increase in organic traffic within three months for a client's online store.

Admin. IT Personnel

Jan 2009 - Jan 2014

Provincial Engineer's Office · Sorsogon City

- Managed and maintained a database of ~500 employee records using Microsoft Access, improving retrieval efficiency by ~30%.
- Created weekly analytical reports in Microsoft Excel for senior management and developed VBA macros to automate reporting tasks.
- Maintained a local area network supporting ~20 workstations on Windows Server 2008.
- Standardized the office's annual accomplishment report template for civil engineers.
- Provided graphic design support (Adobe Photoshop) and general IT/technical assistance to staff.
